MINE BUREAU
OFFICIALS WILL
VISIT TONOPAH

Dr. S. C. Lind, superintendent of the mine and previous visits to the bureau of mines at Reno and to F. C. Lincoln will leave Reno December 15 for a trip to the southern part of the state. They will stop first at Simon to inspect the Simon Silver-Lead flotation mill, from where they will visit Tonopah and Goldfield. Dr. Lincoln will remain some from Goldfield and Dr. Lind plans to continue on to Goldfield, where he will spend two or three days. He will go from there to Los Angeles for the holidays. The trip will be made by rail.

Dr. Lind has been advised by Chief Metallurgist Moore that a man will be sent to the Reno station soon to handle the department of non-metallic minerals and conduct tests on all non-metallic ores, embracing kyanite, fluorite, sulphur and clay products. While his jurisdiction will not be confined to any locality his work will be principally in Nevada and California. The bureau of mines received an appropriation this year of \$70,000 for this work. Heretofore the non-metallic division has been conducted at the Columbus, Ohio, station. Recently it was decided to cover the far western district at one of the western stations, the choice lying between Reno and Berkeley, final decision being in favor of Reno.

WINTER HELPS
RESTORE ORDER
FOR VIENNA

(By Associated Press)
VIENNA, Austria, Dec. 3.—The advent of real winter weather has served better than the police to restore order here after the serious rioting of Thursday when mobs pillaged hotels, stores and restaurants and robbed and beat all who presented an appearance of prosperity. The city yesterday was in the grip of a blizzard with temperatures several degrees below the freezing point with a bitter wind driving the fine snow through the almost deserted streets. Troops have arrived and are on guard at advantageous points.

SHANTUNG MAY
BE PASSED UP
BY JAPANESE

(By Associated Press)
WASHINGTON, D. C., Dec. 3.—Another important point in the far eastern discussions was won by China in the committee of the nine powers, Great Britain, Japan and France agreeing to retire from much of the leased territory of China. The Japanese representatives, it was said, agreed to give up leased territories, holdings in Shantung, and also were reported as offering to discuss settlement from their special territorial privileges in Manchuria.

NOTICE

The management of the Air dome wishes to announce to their patrons that they have leased the Eagles hall and will continue to hold regular dances at that place. Arrangements have also been made for holding there the dances of other organizations who had rented the Air dome. N2S-6t.

PERSONAL

FRANK R. RUZON, of Belmont, is stopping at the Mizpah.

CHARLES NANNINI, the Manhattan merchant, is a Tonopah visitor. MRS. NYE COLLINS, who was operated on at the Mine Operators' hospital, is reported as doing nicely. L. D. GORDON, president of the Round Mountain Mining company, arrived from San Francisco this morning.

ARTHUR S. PUTNEY, the mining operator, came in from Manhattan last evening, and will visit with his family for a few days.

JACK GRANT, one of the fortunate leasers at Royston, was an arrival from the new El Dorado yesterday.

BOYS VICTORS,
GIRLS LOSE AT
BASKETBALL

The team representing the high school boys was an easy victor over the team made up of graduates and non faculty members at the high school gymnasium. The girls were not so successful against their more experienced opponents, and had to be content with the short end of a rather one-sided score.

The first contest of the evening was the first half of the game between high school girls and women faculty members. In the first period the score was far more even than in the last period, the final score being 25 to 6 in favor of the instructors. Miss Rose Harris, a former Nevada university player, demonstrated her ability as a basket shooter par excellence, securing the great majority of the points for her team. Among the girls Miss Hilda Ecklund garnered the largest score for her side. In the feature game the high school boys demonstrated their ability far better in the game than they had in practice. The other fellows appeared to have everything on the ball before the game started, but their favorite plays were blocked by the speedy tactics of the youthful quintet.

Byrne started the scoring for the school by an unassisted play from the far end of the floor, and by rapid work the boys had the score at 15 to 8 when the half ended. Their blocking was well carried out, and at the end of the second half the score stood at 33 to 17.

Dancing followed the games until the midnight hour.

AMUSEMENTS

GLADYS WALTON AT THE BUTLER TODAY

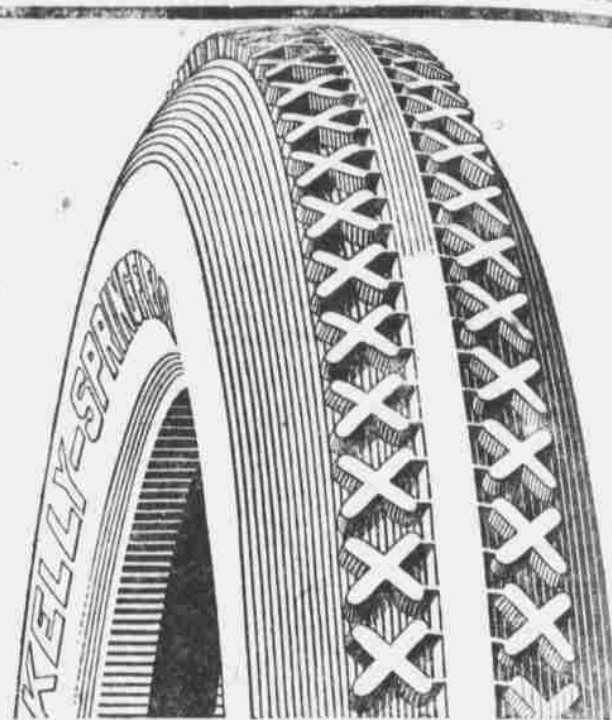

Women who "haven't anything to wear" will feel better about it after seeing Gladys Walton at the Butler theatre today in "Rich Girl—Poor Girl." The little Universal star has a dual role; one as a rich girl where she wears magnificent clothes and the other characterization is that of a little gutter-girl who wears tattered rags. Not every girl can look appealing in rags, but Miss Walton wears them with a wistfulness that makes them actually becoming.

"It isn't so much what you wear," said Miss Walton recently, "as the way you wear it, that makes all the difference in the world. Some women can lend queenly dignity to a shirtwaist and skirt, while others will appear dowdy in spite of the draper and dressmaker. Many little shop girls in the big cities appear smarter in their inexpensive clothes than many of their patrons who have unlimited charge accounts and can satisfy all their whims in the way of material and design."

Considering her extreme youth, Gladys Walton has already established quite a reputation for taste in her apparel. While she is only called upon to wear clothes of the flapper type, her costumes are all characterized by a certain individuality and chic that win the admiration of the feminine portion of the audience. Also, Charlie Chaplin in "The Fireman."

Tomorrow, Harry Carey in "The Freeze-Out," and the fourth thrilling episode of "Hurricane Hutch."
